Check your Understanding Quiz

The post-lesson quiz is to be completed **after the final lesson**. We ask simple demographic questions (school and year group), 5 multiple choice questions and a selection of feedback question. The quiz takes approximately 15 minutes to complete.

The 'Check your Understanding' quizzes collect anonymous data from the pupils that we may use in our research. To track student performance across the pre- and post-lesson quizzes, we ask students to create a unique identifier. They will need to use the same identifier in the pre- and post-lesson quiz so we ask that students to keep a record of this.
